Sharon Felton I prefer expert on fact finding...speaking of facts, did anyone watch BOA meeting Tuesday?
Laurie Ortolano was reported to the Nashua Police Dept by the city to further investigate Ortolano possibly impersonating a city employee, possibly meddling in a city contract finance timeline, falsely promising a contractor that she is able to expedite payments to Inception Technology on behalf of the city of Nashua.(same woman who plead guilty to trespassing at city hall and filed thousands of frivolous RTK requests). Rachel Long no criminal act does not mean that she didn't meddle in a city contract. The city now has to put measures in place to prevent these future misleading and multiple inquiries in the future.

Wow! Laurie had caused the City to Spend more money BUY, she had also made it easier for the R's to keep people out of the information that people do have a right to.

It would be easier to simply put her on notice and if she is harassing people or obstructing peace then, get a restraining order?

The full police report is in the Board of Alderman packet for February 22, 2022 meeting.

Yup! Just like NH has FBI guy Mark Hastbacka who helps right wing radicals like Laurie Ortolano fr [#Nashua](#) (who plead guilty for trespassing @ city hall 2021; now under investigation for impersonating a city employee and meddling with a contractor's payment timeline.

Not that Im not appalled, but is this really “breaking” news. The CIA and FBI have been doing this for years. This is not the first time we’ve learned this!

Don't join the book burners. Don't think you're going to conceal faults by concealing evidence that they ever existed. Don't be afraid to go in your library and read every book...

Yup! I have first hand experience with these thugs who try to intimidate to help their corrupt friends.

These reports raise serious questions about what information of ours **the CIA** is vacuuming up in bulk and how the agency exploits that information to spy on Americans.

This invasion of our privacy must stop.
